

IntegriCo Composites of LA, a leading manufacturer of composite railroad ties, is seeking highly motivated results oriented Quality Assurance Technicians for its Sarepta, LA location.

**Required Qualifications:**

- Understand how production parts are used to help evaluate pass or fail situations and relay that information to appropriate personnel.
- Evaluate parts through check fixtures and visual inspection.
- Ensure that parts produced in molding meet the quality measurements of our customers.
- Must be able to communicate with other employees through verbal and written skills.
- Be able to take accurate and time measurements using basic meteorology equipment such as calipers, pyrometers, micrometers and gauges.
- Have the ability to perform receiving inspection functions.
- Good computers skills (Microsoft Office).
- Ability to recognize and respond to emergency situations upon being constantly aware of environment and surroundings.

**Essential Functions:**

- Be able to communicate effectively with inspectors on all shifts any issues related to quality and or the department.
- Review, organize and file QA related paperwork.
- Monitor and audit process parameter paperwork to ensure that jobs are being run to standard settings.
- Monitor materials, manufacturing process, and inspection process to insure quality products are produced.
- Be a first point of contact for quality issues and cross shift communication.
- Communicate the occurrence of defects, out of control conditions and other problems to the Quality Manager and the Manufacturing Department.
- Report Quality problems, processing problems, control chart problems.
- Report incoming inspection, and reviews returned defective material as directed by the Quality Manager.
- Report time variance with production schedule needs.
- Maintain storage and rotation of first piece evaluation parts.
- Ensure that control plans are being followed.
- Be available with little or no notice to work overtime in critical situations.
